

**Best way to find solution, KOTITI**

Nationally Authorized Testing-Inspection & Research Institute

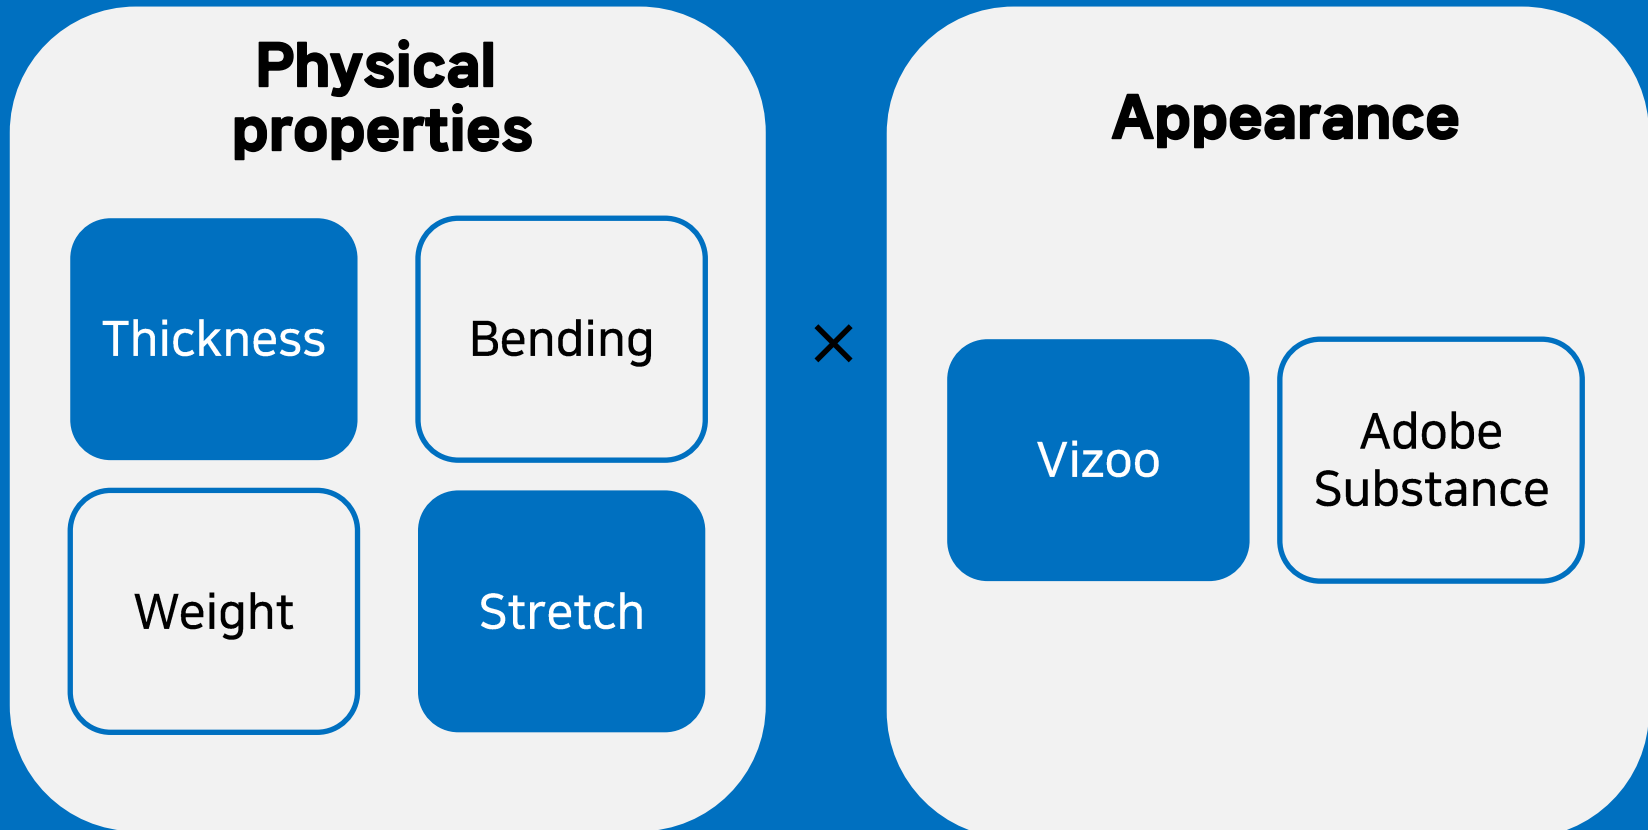

---

**CLO**

**Fabric digitization service**

# Fabric digitization service

KOTITI's Fabric Digitization Services will help you digitize your fabric and allow you to fully utilize your digital supply chain.

# Why KOTITI

Founded in 1961 with the goal of promoting the growth of textile industry in Korea, KOTITI was designated for the first time as the nation-authorized textile inspection and testing institute with performing R&D activity.

- Designated as an official testing agency by Korea Laboratory Accreditation Scheme(KOLAS)
- Have conditioning room to maintain regular temperature & humidity
- Using ISO certified machine and also calibrate the machine regularly

# Procedure

## 1 Request

[Testing request  
by on/off-line.](#)  
(click to download  
the file)

## 2 Sampling

Taking sample and  
making specimen  
to test.

## 3 Testing

Testing & Analysis  
Physical properties  
for CLO.

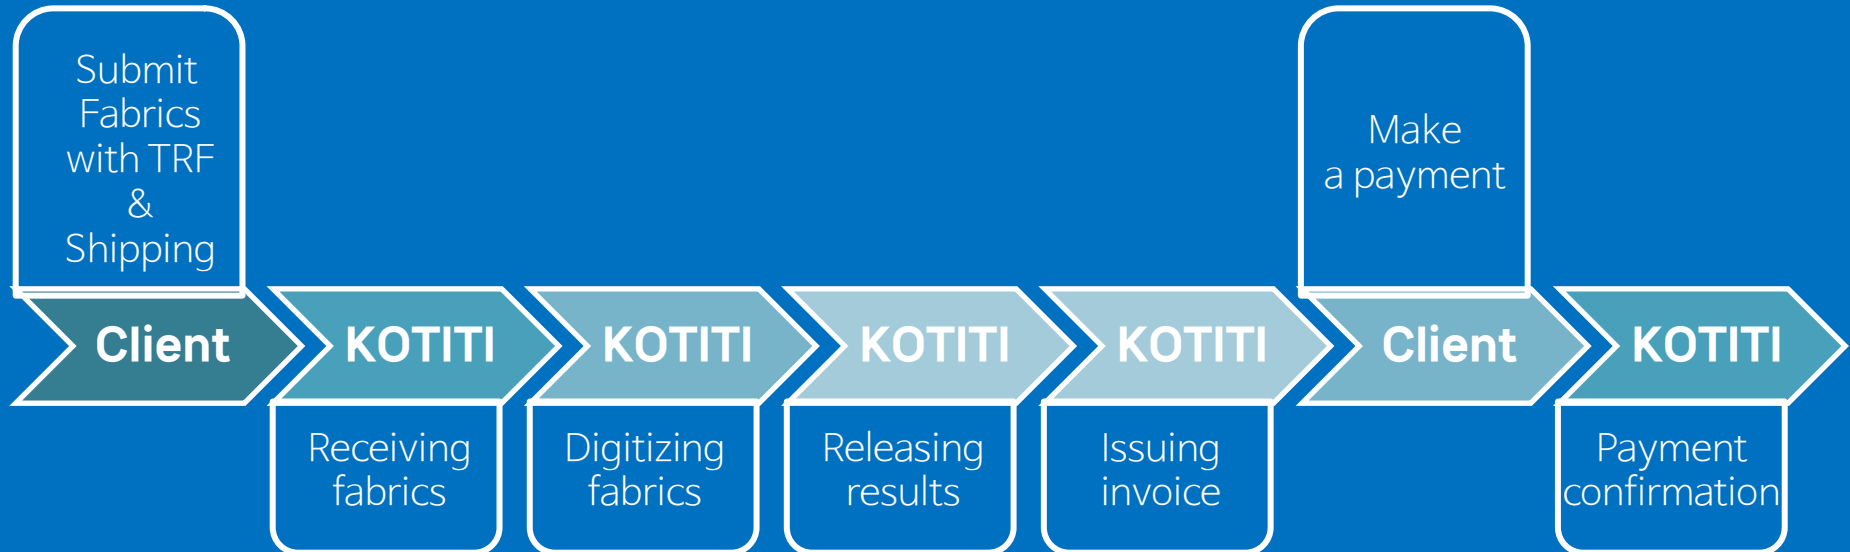

## 4 Reporting

Data conversion and  
making fabric file.(zfab)

## 5 Issuing

Issuing  
the invoices.

# Procedure

- Please make sure to mark the face/back side of the fabric(s).
- All processes including digitized fabrics & payment are conducted based on the information written in TRF.
- If all required information isn't given, test might be pended while checking.

# Hard to measure list

The following special fabrics can not be measured and/or scanned.

**Long Fur**

**Pleats**

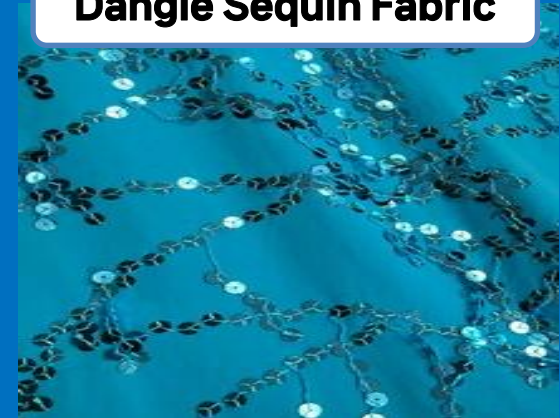

**Irregular Hairy fabric**

**Feathers yarn**

**Dangle Sequin Fabric**

# Shipping location & Pricing

Please send both sample and TRF (Test request form) together when sending a parcel. Shipping address is as below.

Address: KOTITI, 48, Gwacheon-daero 7na-gil, Gwacheon-si, Gyeonggi-do, Republic of Korea (Attn. Textile & Consumer product team (3D fabric digitization team))

No.	Testing Item	Testing fee (\$/Fabric, USD)	Fabric Size
1	Fabric Testing for CLO	\$ 35	1 yard or (50 × 50)cm per Fabric
2	Image Scanning for 3D program	\$ 15	
3	Validation	\$ 15	
<b>Total</b>		<b>\$ 65</b>	

Fabric with a repeated design need to be sent containing at least one repeat pattern for image scanning. If one pattern's repeat size is bigger than (18 × 12) cm, we might need you to provide us with the image file, including one pattern repeat, due to the possible size of the scanning device.

# Shipping location & Pricing

- Invoice will be issued by the billing information in TRF through email.

KOTITI will email to mill with invoice & follow up on next steps regarding payment.

It should be required to pay within 30 days after receiving the invoice.  
If not, will list on blacklist and block the test till the payment is done.
