

Staple-Core Spun Yarn

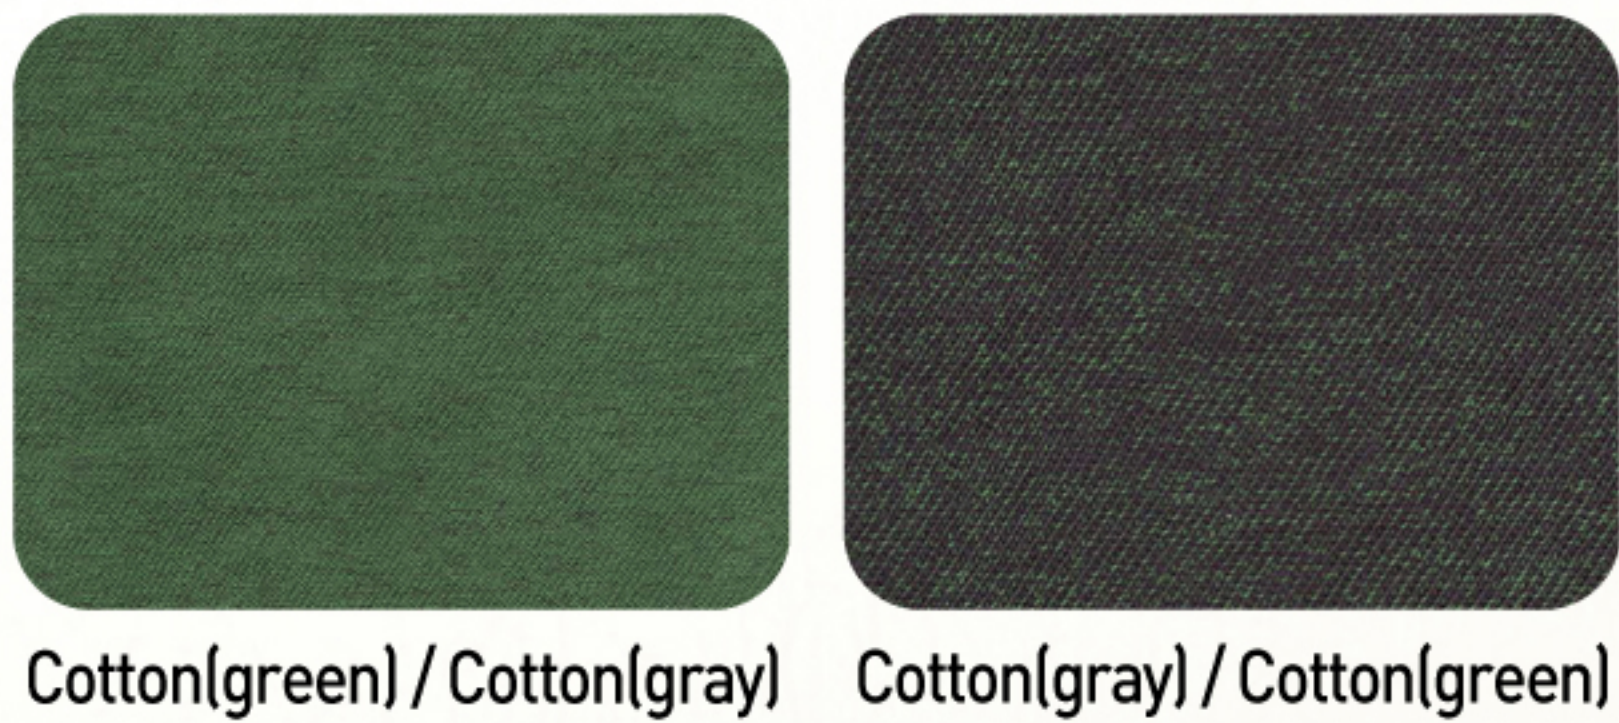

1. The Concept of Staple-Core Spun Yarn

- Different kinds of staple fibers (color or material) consist in core and sheath sector of single yarn separately.

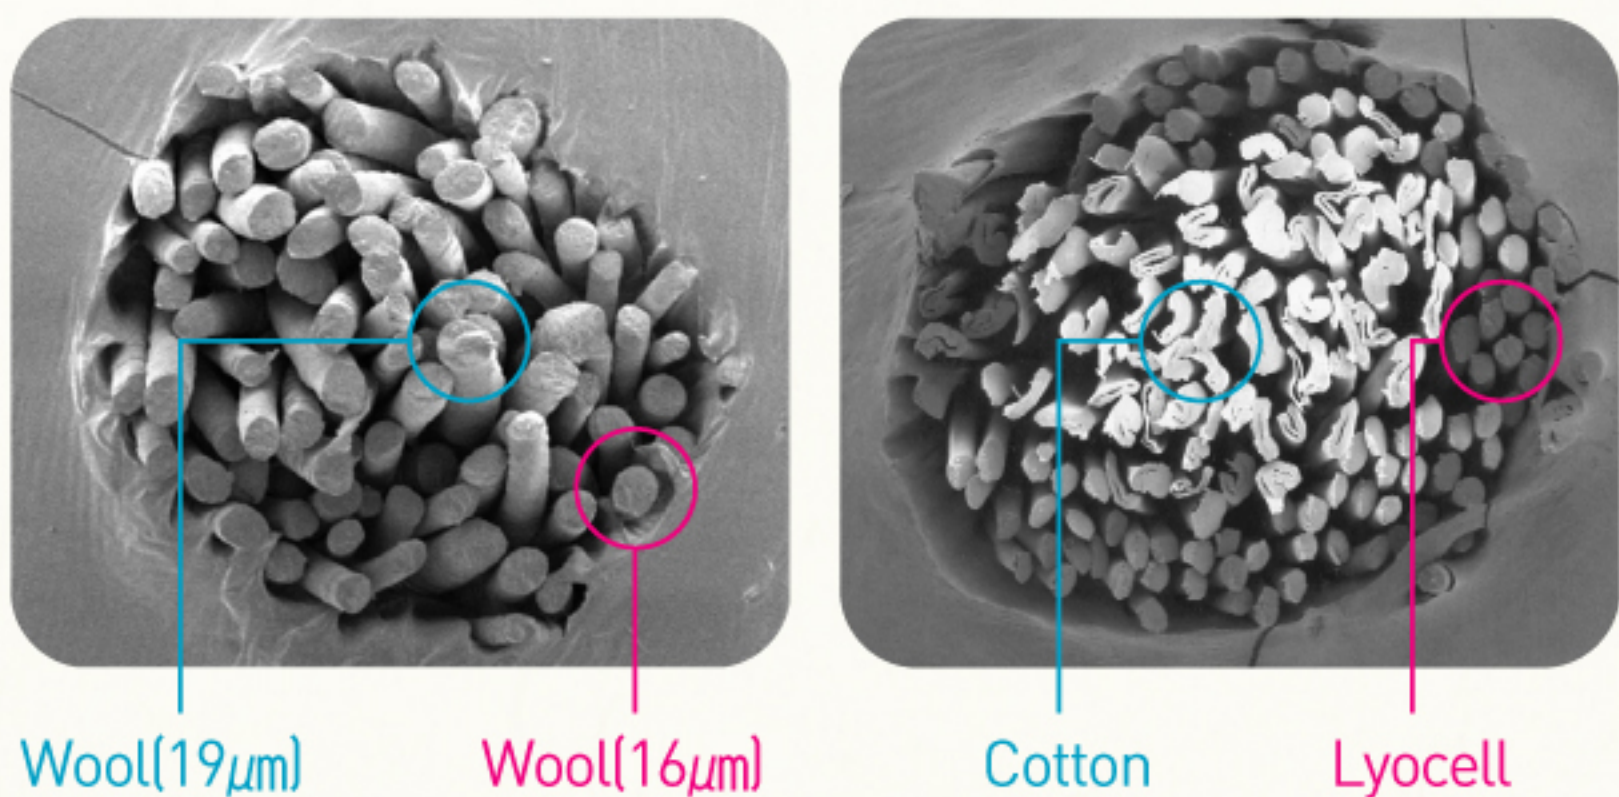

2. Special Feature of Staple-Core Spun Yarn

- Appearance : Special look due to partial exposure of core fibers
- Cotton 100% [sheath / core (45 / 55)]

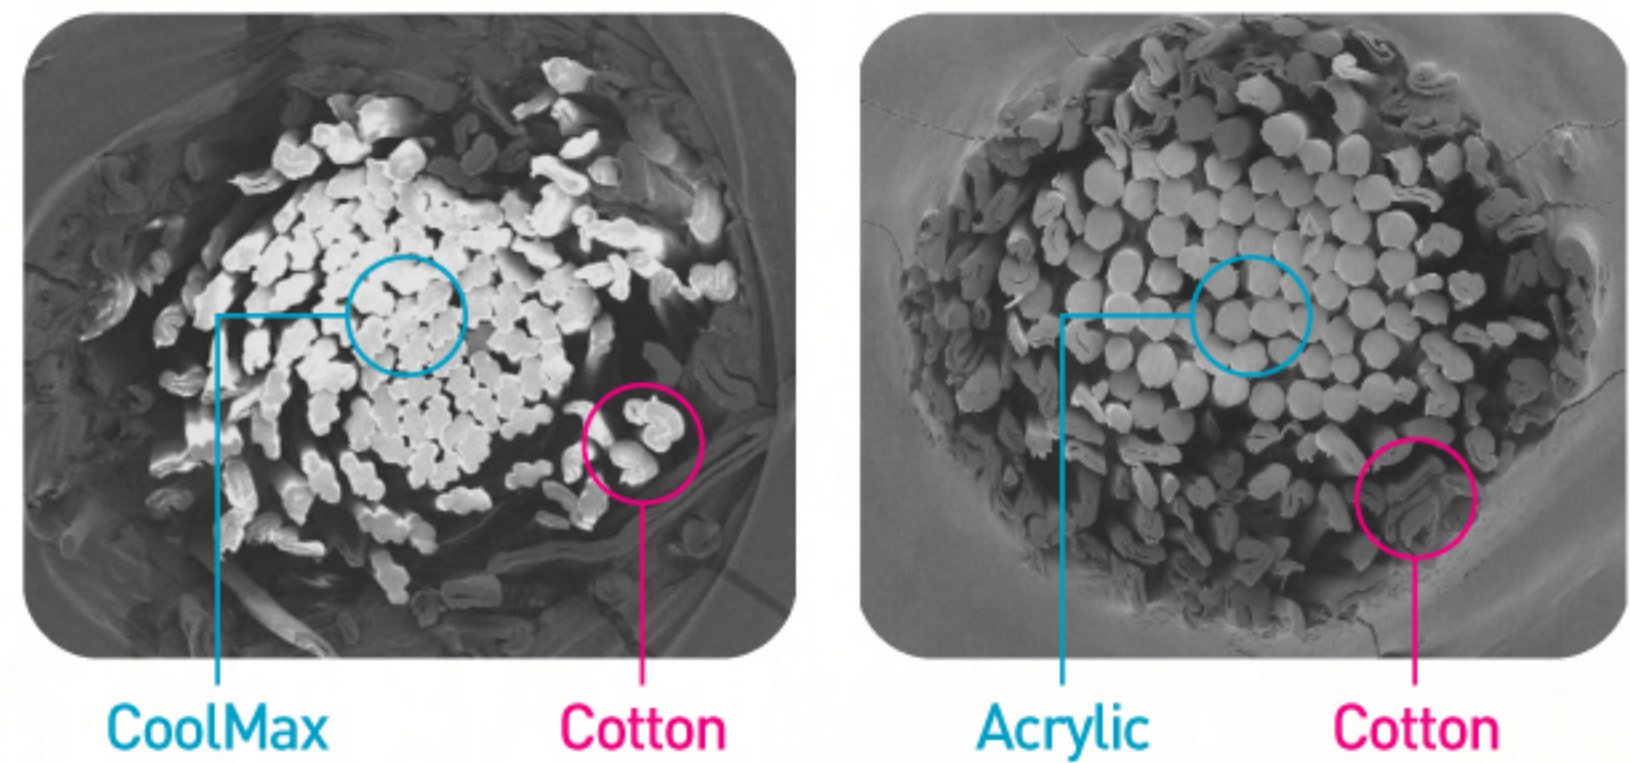

- Touch : Soft & bulky, excellent crease recovery

- Function : Combination of natural and synthetic fibers

- Cotton / CoolMax or Acrylic [sheath / core (55 / 45)]

- Feel like cotton
- Highly absorbent and quick-dry

- Feel like cotton
- Warmth

3. Performance : Drying rate

- Cotton / CoolMax [sheath / core (55 / 45)]
